34,900,000 shares have been issued pursuant to Terrain's Listing Rule 7.1A capacity. The shares to be issued represent 8.6% of the post placement capital in the Company. Pre-placement shareholders overall interests will therefore be diluted by 8.6% following the placement.

Further details of the approximate percentage of the issued capital post the Listing Rule 7.1 and 7.1A placement held by pre-placement registered holders are as follows:

Post placement issued capital held by pre-placement registered holders who did not participate in the 7.1A placement	91.4%
Post placement issued capital held by pre-placement registered holders who did participate in the 7.1A placement	0%
Post placement issued capital held by participants in the 7.1A placement who were not registered holders at the time of the placement	8.6%

Terrain issued the shares by way of the Placement under ASX Listing Rule 7.1A and not by way of a pro-rata offer as it considers this to be the quickest, most efficient and most certain method for raising funds in the circumstances.

The Placement was not underwritten but Australian stockbrokers have participated in placing the Shares to clients for which they will receive a fee of 6% of the funds contributed. Terrain has also incurred miscellaneous expenses including listing fees and legal fees in connection with the Placement.
