EXPLORATION UPDATE

Terrain Minerals is pleased to announce that exploration programs will commence in late June on all of the Company's projects including -

- RC drilling of high grade gold targets at the Dodgers Well Project;
- RC drilling of shallow gold resources at the Bluebush deposit in the Bundarra Project;
- Ground electromagnetic (fixed loop EM) surveying of two areas to define deep nickel sulphide targets at the Aztec Dome Prospect in the East Kambalda Project.

A resource upgrade for the Wonder North underground deposit is expected by next week.
