## Terrain Strengthens Market Position with Frankfurt Listing

**Terrain Minerals Limited ("Terrain" or the "Company")** is pleased to confirm that the Company has listed on the Open Market of the Frankfurt Stock Exchange (Germany/EU).

### Frankfurt Code/Stock Number: FRA: T4Y

Terrain's inclusion on the Frankfurt Stock Exchange will provide improved access to investors in the northern hemisphere. This strategic move was instigated following continued interest from potential investors in the European region and increasing interest around investors interest in gallium, a critical metal.

Terrain is committed to enhancing transparency and accessibility in the financial markets and solidifying its position as a trusted critical minerals exploration company. The Company is focused on advancing its 100% owned Larins Lane Gallium Project in Western Australia, alongside with other gold and base metal exploration opportunities which Terrain continues to explore.

**Justin Virgin, Executive Director of Terrain Minerals Limited, commented:** "Terrain is taking the lead in the gallium exploration space, becoming potentially the first Australian company to release a Gallium/REE JORC compliant exploration target in November 2024, covering just 5% of the 27km<sup>2</sup> mapped target area. Additionally, we began metallurgical studies in December 2024, with completion expected mid-2025.

"Our quotation on the Open Market of the Frankfurt Exchange, is a significant milestone and a key step on our journey to advance our 100% Larins Lane Gallium project. This listing not only increases our ability to engage with a broader global investor community but also reflects our commitment to adding value for shareholders. It has the potential to enhance liquidity and expand our shareholder base as we continue to deliver on our strategy."

### Advantages of the Open Market Frankfurt Stock Exchange Listing:

- **Increased Visibility:** The listing enhances Terrain's visibility and promotes the Larins Lane Gallium (regolith/sands) Project, to a much larger pool of investors and potential end-users. It expands the Company's profile, bringing it to the attention of the global investment community and unlocking new potential investment opportunities and partnerships.
  - As part of this new marketing and awareness strategy Terrain presented during the 14th International Investment Forum (IIF) Virtual Conference on the 25 February 2025.
- **Access to Capital Markets:** Listing on the Frankfurt Stock Exchange opens access to capital across continental Europe which is essential for driving sustainable growth and funding expansion into new markets. This new access will help the Company meet its strategic objectives and strengthen its position in the growing critical metals sector, especially as geopolitical tensions restrict access to these valuable commodities.
